

RICE | CLIC

Center for Languages & Intercultural Communication

Language Courses for 2018-2019

CLIC offer course in 11 languages:

Arabic	Chinese	French
German	Hindi	Italian
Japanese	Korean	Portuguese
Russian	Spanish	

Before studying a language with CLIC, you must take the Language Placement Test for that language, even if you have no prior knowledge.

- The placement tests are given in Canvas and you can access them through our website at clic.rice.edu.
- Tests will be open from August 7th – August 25th for fall 2018 enrollment.
- *Students can expect to wait 1-2 days from the time they finish the test to receive the placement results and another 1-2 days after that for the placement to be recorded with the Registrar's Office to allow students to register via Esther.*
- Students who have taken a language course with CLIC and plan to continue studying will not need to retake the placement test.

Rice in Country Summer Study Abroad

- In summer 2018, CLIC sent students to Argentina, France, Germany, Japan, Korea, and Spain for intensive language courses on faculty-led study abroad programs.
- The Rice in Country programs feature homestays, community engagement, language partners, and cultural excursions.
- Students earn six Rice credits in six week and may be eligible for scholarships to help defray the cost of participation in these programs.
- We will announce in the fall of 2018, the programs to be held in the summer of 2019.

Certificate of Language and Intercultural Communication

- The Certificate of Language and Intercultural Communication gives Rice undergraduates a method to demonstrate significant second-language abilities to potential employers and others.
- The Certificate will appear on the student's official Rice transcript.
- Students interested in pursuing the Certificate should review the requirements on our website at clic.rice.edu.
