

AP/IB Credit List Disclaimer:

The information contained in this list is meant to be a helpful guide. This list should not be used as the final deciding factor in your course planning. In order to get the most accurate information, students are encouraged to contact medical schools directly.

Y = AP credit is accepted; Y* = upper level credit in the discipline will satisfy the requirement; N = does not accept AP credit; NR = not a required prereq; P = only part of the requirement is satisfied with AP credit (check school's website)

(Please remember, AP policies at various institutions may change each year and vary from institution to institution. In many cases, if a student has AP credit and elects to keep it, completion of upper level coursework in the discipline will fulfill the requirement. Even when AP credit is in place, it is highly recommended that upper level coursework in biology and chemistry is completed).
